Full service boarding to both cats and dogs

Our accommodations for dogs, consists of 20 indoor runs and 10 indoor/outdoor runs. The space is lit by skylights as well as indoor light and is air-conditioned or heated. There are several runs that connect with a sliding partition to keep family members together.

The dogs are let out, or walked out, to the outside kennels to stretch and eliminate. They will have at least three trips out per day and a leash walk around the property once daily.

We feed Hills Science Diet Adult Maintenance or Purina Sensitive Stomach food. If you would like, you may bring your pet's food labeled so we don't stray from their normal diet. A change in food along with the owner being away can be stressful.

We supply cots so the dogs have a cushioned area to rest and have several safe toys for those who need a little extra entertainment. You are welcome to bring special bedding and/or toys with you. No rawhide!

Our private room for cats is quiet, carpeted, and has several windows. The cats reside in their own six level "TOWN HOUSE". They sleep in a four-poster oak bed with a quilt. The litter box is stored in the lower level, away from the living space, but near ventilation units. The Town House is kept fresh with a special air flow system.

Pets can be dropped off during kennel business hours:
